Random Acts of Flowers Knoxville has recycled and repurposed flowers by engaging dedicated volunteer teams to deliver beautiful bouquets and moments of inspiration to individuals in healthcare facilities across the nation.

As a result of the "green" nonprofit organization's mission fulfillment, there are 41,345 bouquets delivered, 23,741 volunteer hours, and 93,340 positive impressions for both Knoxville and RAF across all-time mission fulfillment numbers. The below statistics represent the individuals, and the community.

Thank you for such a great time at our recent fundraiser. We had a great time serving the community and a fantastic night thanks to all of you who attended and supported our event. We are so grateful to have such a wonderful partner in Pilot Flying J.

Marcy Meldahl

Volunteer in a wonderful situation that has been finding her niche at Random Acts of Flowers since joining the team in August of 2015. Marcy says that being able to see how RAF is a very welcoming place and says "RAF treats its volunteers better than some businesses treat their employees!" She says that the seasonal volunteer is a way to try new things while trying to make her entry into the organization very pleasant.

One of her favorite experiences was the day she delivered a bouquet that the lady received minutes before she passed away! Marcy says that many times that she has helped deliver a bouquet, she has noticed from the outside of the patient's room a feeling like RAF has to a large degree as a Human Resource Professional.

Marcy Meldahl

RAF's newest branch in Silicon Valley officially launched on May 9th surrounded by over 300 of our best friends and supporters. Marcy Meldahl is a wonderful volunteer that has been finding her niche at Random Acts of Flowers since joining the team in August of 2015. Marcy says that being able to see how RAF is a very welcoming place and says "RAF treats its volunteers better than some businesses treat their employees!" She says that the seasonal volunteer is a way to try new things while trying to make her entry into the organization very pleasant.
